Re: Real Science-4-Kids Biology, Level 1

Chapter 2 Notes

We've completed Chapter 1 and now we're ready to tackle cells in Chapter 2.

BrainPop Videos

One of the things we're going to do this month is watch all the BrainPop movies on cells. There are 22 (very short) and each one has a quiz. They are listed here:

<http://www.brainpop.com/science/cellularlifeandgenetics/>

Books

We're also going to read the first two books by Frances Balkwill, [Cells Are Us](#) and [DNA is Here to Stay](#).

Websites

We'll use **the Biology4Kids** website which has a great section on cell structure. At the bottom of each page there is a link to the next page.

http://www.biology4kids.com/files/cell_main.html

Look here for additional activities such as quizzes, videos, slideshows, and wallpaper for your computer with amazing images from the five kingdoms.

Study Folder

The study folder we purchased from Gravitas Press has worked out very well for us. Between that and the classifications mnemonic, William learned all the facts from Chapter 1 and can rattle them off on cue.
