

Date:

The Thirty Years' War 1618-1648*

Lets's do something different this week. Instead of answering many questions about the Thrity Year's War, this week I want you to try to just answer **one** question.

You can write down your answer in 3-5 paragraphs, or you can narrate it to someone else.

The Question: **What was the Thirty Year War about?** (In your answer, you might want to address *some* of these issues: Why it began? Who were the main historical characters involved? What were they fighting about? Where were they fighting? What happened to the civilian population? Why did it take so long to resolve the conflict? How did the war come to an end?)
